Consisting of mirrors, combs, brushes, shaving glasses, manicure sets, Gillette razor sets, etc. Fine assortment for Christmas.

Candies

Two popular makes — "Lohmhardt's," Oakland, and "Sweet's," Salt Lake City—both guaranteed pure and fresh.

In special Christmas boxes.

Kodaks

A Kodak is always a most acceptable gift. Our stock is complete. All sizes and kinds.

Papeteries

New line of dainty stationery in fancy boxes for ladies and gentlemen. Just the thing for Christmas.

HOLLISTER DRUG CO.

DR. ELLIOTT TO HEAD BOARD AGAIN

[Special Star-Bulletin Correspondence] HILLO, Hawaii, Dec. 13.—Although he wanted to resign there was no opportunity afforded President Elliot of the Hilo Board of Trade at the meeting held last Tuesday afternoon and the members present were unanimous in their wishes that he should continue as their president for another year.

When the nomination committee made its report, naming Elliot as next president, he stated that as he had held position for the past two years he thought it was up to someone else to be given a chance.

"There are a number of good men in this association," he stated, "who are eminently qualified to hold down the position and I think that as I have been in the chair for the last two years I should be allowed to retire. In fact I must state that I do not wish to continue for another year."

This statement brought a rush of protest from the members present and those who were on the nomination committee stated that the matter was one that had been fully gone into by the committee and they had carefully deliberated the fact that President Elliot had been in the chair for two years. At the same time there were so many things that he had started they thought he should serve them for another year and carry out to completion the schemes which were his own.

After further discussion Elliot withdrew his objections for the present and the matter has now gone to the annual meeting. The other officers named by the nomination committee are as follows:

OAHU AND KAUAI IN COMBINE

(Continued from Page 1)

avalanche that buried Republican candidates for the legislature on this island, is the man on whom the political wise ones are declared to have centered their efforts to land the speakership plum. Though somewhat new to legislative circles, Cooke is said to be fully as well equipped to handle the affairs of the House as is Holstein. Moreover, the latter is none too firmly seated on his throne, and murmurs of revolt were rife all last session. In fact, Sam Kellinof of Maui aspired to unseat Holstein and at one time had nine representatives in his supporting phalanx, but Holstein won out and was re-elected speaker of the last house, where he maintained his good record in handling business promptly and efficiently.

Although Holstein has ruled with success, Oahu last session felt that the most important island of the four was cutting about the least figure. Kauai had the chairman of the ways and means committee of the senate, and the finance committee of the house, as well as the president of the senate, Knudsen, while Hawaii had the speaker of the house. This year, Oahu will have even less prominence in the committees, from present prospects, because Oahu has gone Democratic, and both the houses, remaining Republican, will not be likely to hand over any more chairmanship honors to the Democrats than they can help.

The plan to elect Clarence Cooke speaker of the House has been battled out for some time, and the Democratic delegation-elect has already done some informal caucusing. Furthermore, the plan has been broached to Kauai, with what success is yet to be seen. Of course, Kauai Republicans will want something for the Garden Island in return for casting their strength to Holstein rather than Cooke. Doubtless Senator Knudsen, who is a holdover, will aspire to be

WILSON AND THE PEERLESS LEADER TO HOLD CONFAB

BY C. S. ALBERT.

[Special Star-Bulletin Correspondence] WASHINGTON, D. C., Dec. 13.—The mountain and Mahomet turn is to be done by Governor Wilson and William J. Bryan, after all is said and done. Mr. Bryan would not go to Bermuda and have a consultation with Governor Wilson because of the uproar raised by the common people when the news became public that such a meeting had been arranged. So Governor Wilson wrote Mr. Bryan and requested him to meet the steamer from Bermuda in New York and they would have their discussion of political matters and cabinet material in the big wicker chair.

In his letter Governor Wilson tried to make it plain that he wishes to consult with Mr. Bryan as one of the leaders of the Democratic party. He will also consult with other Democratic leaders upon his return.

There is considerable doubt expressed in some quarters as to whether the combination can be put through. Republicans who would furnish six votes of the sixteen might not be willing to unseat Holstein.

On the other hand, there is the unmistakable feeling that the most important island in the group has not been given its due proportion of legislative honors, and the Oahu members declare that they will see that this situation is materially changed.

PUBLICITY COMES CHEAP TO THIS MAN

There is a certain man on the coast who has been engaged in considerable press-agent work for himself and as a result Honolulu came very near having two managers for the coming Floral Parade and Carnival, according to an article in the Pasadena Star of Nov. 28. Topped by a glaring headline, the statement reads that one Leroy D. Ely of Pasadena has refused the "flattering offer" to manage the Honolulu floral parade, and has decided to remain in that city during the period of preparation for the annual tournament of roses. The article is, in part, as follows:

"I am not going to Honolulu," said Mr. Ely, when asked by the Star today whether the report was true that he was preparing for a trip to the islands.

Those connected with the coming Floral Parade can make neither head nor tail to the article, and it is evident that the said Leroy D. Ely had good reasons for declaring that he had changed his mind as to accepting the aforesaid offer. Director General Chillingworth, when asked this morning as to his knowledge of the truth of the story, stated flatly that he knew of no such appointment and believes that it is merely a trumped-up story of some person who is soliciting publicity. Secretary Henshall and Secretary Wood are both ignorant of the story.

M'KEE RANKIN BOOKED TO PLAY IN HONOLULU

Another treat is in store for the Honolulu theatre-goers when McKee Rankin visits this city on January 6 with a company of sixteen people. Mr. Rankin is well known in Honolulu, having played at the Hawaiian Opera House with Nance O'Neill, the famous tragedienne, on several occasions. His presentations here have always been in character, but on his visit this time he will be seen in different roles. It is his plan to put on two plays a week, and his company, which he has selected with great care, will be composed of many well-known actors and actresses. January 6 has been set as the opening date.

Maudie Powell, the violinist, will be in Honolulu only during the Christmas season, arriving here on the Sonoma December 27, and will leave early in January for the mainland. The members of the Commercial Club, in observance of their time honored custom of a jinks at Christmas, will attend Miss Powell's first performance in a body, and have already engaged practically half the house. Following the performance the members will gather at a dinner in the club rooms.

For the first time in the history of the lower branch of Congress, the Democrats of the north will outnumber the party colleagues of the south in the next house.

It's a genuine surprise party if any one has a good time at it.

PLACE TO FIND GOOD EATING

Christmas cheer without good "eats" is something as impossible to imagine as big sugar dividends without a decent amount of tariff protection. In its palatial new quarters, The Palm Cafe and its manufacturing divisions "take the palm" for providing plain and fancy "grub." Alfred H. Junglauss, president of the Palm corporation, speaking of the Christmas trade of the establishment this morning said:

"We have the finest lines of confection ever seen in Honolulu, peppermints and German honey cake being among the popular favorites. Our fruit cakes are famous. In the ice cream department we have all kinds of glazes, sherbets and punches.

"Besides outside catering, we are always prepared to serve party dinners in the cafe. For the season we are giving away a nice line of calendars and fans. We specialize a good deal on our bread, having the most sanitary bakery in town. Both in the bakery and in the candy factory and the pastry and ice cream department, there has never been any place in Honolulu where absolute cleanliness has been so rigidly maintained. Gas is the fuel used exclusively—we burn neither wood nor coal—so everything is positively clean and sweet.

"Business this season all round has been fairly good. It is picking up right along."

WAR OF 'VETS.' ENDS AT LAST

Finis has been written to the harrowing tale of the three veterinarians at Schofield Barracks, who disagreed professionally, personally, and socially, to a point where all three finally faced a general court martial, and were forced to answer to statements, allegations and left handed compliments that had been going the merry rounds.

Kipling's "Rhyme of the Three Seals," where "The Baltic ran from the Northern Light, and the Stralsund fought the two," has nothing on the prose, but not prosaic, story of the warring "vets."

Veterinarian Haynes got off with forfeiture of \$25 per month for two months. Veterinarian Vans Agnew was acquitted on all the specifications, and now comes the order in the case of Dr. Lester E. Willoughby, showing that the artillery veterinarian gets the hardest handling. He is sentenced to be confined to the limits of the garrison for four months, and to forfeit \$25 per month for that period.

Dr. Willoughby's offense was hung on that old stand-by, the 62nd Article of War, under "conduct to the prejudice of the good order and discipline."

CONGRESSMAN IS NOW DRAFTING AN INCOME TAX LAW

By C. S. ALBERT

[Special Star-Bulletin Correspondence] WASHINGTON, Dec. 13.—Anticipating the early ratification of the income tax amendment to the Constitution, Congressman Cordell Hull, a Democratic member of the Ways and Means Committee, is now drafting an income tax bill which probably will be the model for the committee in perfecting such a measure during the extra session of Congress.

A tax upon unearned as well as earned incomes, over and above \$5,000, is understood to be the tentative plan of the Democratic House. It is believed that the tax upon earned incomes will be put at one per cent, and that upon unearned incomes at one and a half per cent.

Democratic leaders estimate that \$100,000,000 to \$150,000,000 may be raised through an income tax, and such a bill is slated as a companion measure to one of the tariff revision bills which will pass during the extra session next spring.

FINEST KODAKS HAVE BIG RUN

"Secure the shadow ere the substance perish," the old photographers advised to catch custom. This is not more than a small part of the motive of amateur photographers, who not only want the fun of snapping up the shadows of human relatives, friends and interesting characters, but on every occasion, whether amidst home scenes or those as distant as Far Cathay, to gather views of persons and places as souvenirs of their travels and evidences of their skill in the picture-taking art. That this art is a rapidly growing one is proved by the talk given to a Star-Bulletin man today by John T. Warren, owner and manager of the Honolulu Photo Supply Company, in answer to an inquiry about Christmas business.

"Our business is quite a month ahead of last year at the same time," said Mr. Warren. "The sale of expensive kodaks—the high class instruments—is one of the most noticeable things in the increase of business."

"I think the new framing department we have got is also largely responsible for the gain. An expert has just come down from the mainland to handle this branch, and already the results are most promising."

NEW AMERICAN CAPITAL TO AID IN PHILIPPINES

By C. S. ALBERT

[Special Star-Bulletin Correspondence] WASHINGTON, Dec. 13.—The need of American capital in the Philippines is emphasized by E. M. Loeffler, an importer and exporter in Manila and manufacturer of cigars there, who is now at the Willard with Mrs. Loeffler on his way around the world. Big developments are going on in the island, he says, but are held back by the failure of American capital to flow there easily. Mr. Loeffler is to interest European markets in Philippine products.

With the growth of all sorts of industries in the Philippines, Mrs. Loeffler says, foreigners are becoming strongly interested and agents from rubber growers and merchants in the Straits Settlements have been giving attention to the rubber possibilities, there with a view to starting plantations.

Great ignorance exists here, Mr. Loeffler says, of what the Philippines are really turning out. Embroideries that are superior to any that come from Paris and laces that surpass the finest turned out at Brussels are made in Manila and can be bought much cheaper. Many of the expensive straw hats purchased by importers in Paris are Philippine products and could be purchased there direct much cheaper than in France if the importer only knew about it.

CONGRESSMAN IS NOW DRAFTING AN INCOME TAX LAW

By C. S. ALBERT

[Special Star-Bulletin Correspondence] WASHINGTON, Dec. 13.—Anticipating the early ratification of the income tax amendment to the Constitution, Congressman Cordell Hull, a Democratic member of the Ways and Means Committee, is now drafting an income tax bill which probably will be the model for the committee in perfecting such a measure during the extra session of Congress.

A tax upon unearned as well as earned incomes, over and above \$5,000, is understood to be the tentative plan of the Democratic House. It is believed that the tax upon earned incomes will be put at one per cent, and that upon unearned incomes at one and a half per cent.

Democratic leaders estimate that \$100,000,000 to \$150,000,000 may be raised through an income tax, and such a bill is slated as a companion measure to one of the tariff revision bills which will pass during the extra session next spring.

Congressman Hull is the author of the bill extending the excise tax, which passed the House last session, and is considered the logical man to draft a bill for submission to the ways and means committee of the House, which will handle this important legislation. The Democrats intend an income tax to supplant the existing corporation tax law, as well as the Underwood extension bill, which failed of passage in the Senate last session.

Swollen fortunes will be reached by the proposed new law, it is declared today, and the man who has an "unearned" income may have imposed upon him a graduated higher rate of taxation, comparatively speaking, than the salaried man whose incomes barely exceeds the proposed \$5,000 exemption.

The income tax bill will be introduced in the House as soon as two more States ratify the Constitutional amendment.

GERMAN DIPLOMATS MUST WED GERMAN

BERLIN, Germany, Dec. 4.—The entry of American-born wives into the German diplomatic corps is forbidden from now on, under a ruling by Imperial Chancellor von Bethmann-Hollweg, which has restored the regulation made by the late Prince Bismarck, prohibiting German diplomats from marrying foreigners.

Former Imperial Chancellor von Ruelow, with his Italian wife, Princess Maria Beccadelli di Bologna, headed a service which was largely graced by American brides.

Dr. von Bethmann-Hollweg has now informed the members of the German diplomatic service that the decision of an official of the German diplomatic corps serving abroad to marry a foreigner will hereafter be regarded as an expression of his wish to retire from the service.

Senator Dixon, with his prediction of 6,000,000 votes for the Bull Moose, gains admittance to the rank of interesting prophets.

The proof of the pudding may be in the amount left over. The man who I untrue to his friends can never trust himself.

Most people would rather take advice from strangers.

Even a married man may do as he pleases—as long as he pleases his wife. If some men have plenty to drink with their dinner they never complain of the cooking.

There is little doubt that the young die good.

A fool and her money frequently marry into the nobility.

handled in Manila is increasing, Mr. Loeffler says, but, owing to the great time required to get goods to this country, as well as for legislative reason, there is grave danger of European merchants capturing a large proportion of the trade in certain lines. Merchants in this country exercise too little care, Mr. Loeffler says, in packing goods. In Germany, he says, the per cent of breakage is only 2 1/2. In goods from the United States, the amount of breakage often runs as
